SUNIL GAUTAM

SENIOR BACKEND ENGINEER • Node.js / TypeScript • SCALABLE APIs • SYSTEM DESIGN

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Senior Backend Engineer with 13+ years designing and scaling high-performance, production-grade systems with **Node.js and TypeScript**. Builds robust **REST APIs, backend services, and third-party integrations**, drives **system design and architecture decisions**, and optimises application performance, reliability, and scalability. Strong in **relational and NoSQL database** schema and query design (PostgreSQL, MongoDB, MySQL), debugging complex production issues to root cause, and writing clean, maintainable, well-tested code. Experience delivering secure, high-throughput platforms in banking and enterprise SaaS — well suited to core backend systems handling large volumes of complex, transaction-heavy workloads such as logistics and deliveries.

TECHNICAL SKILLS

Core Backend: Node.js, TypeScript, Express.js, JavaScript (ES6+), REST APIs, Backend Integrations, Third-Party Service Integration, API Design

System Design: Scalable Architectures, High-Performance Systems, Distributed / Event-Driven Design, Microservices, Reliability, Performance Optimization, Caching

Databases: PostgreSQL, MongoDB, MySQL, Schema Design, Query Optimization, Data Modeling, High-Availability Data

Production & Quality: Production Debugging & Root-Cause Analysis, Well-Tested Code (Jest), Monitoring/Observability (AWS CloudWatch), System Reliability, Code Reviews

Cloud & DevOps: AWS (EC2, S3, RDS, CloudWatch), Firebase, CI/CD Pipelines, Git, GitHub, Bitbucket

Practices: Agile/Scrum, Secure Coding (JWT/OAuth/RBAC), Mentoring, AI-Assisted Development (Claude Code)

PROFESSIONAL EXPERIENCE

Team Lead / Senior Backend Engineer — HKK Entertainment Private Limited
Jan 2024 – Present

Node.js, TypeScript, Express.js, MongoDB, REST APIs, Socket.IO, AWS, CI/CD, Jest

- Design and develop scalable **Node.js/TypeScript backend services and REST APIs** for **Zillit**, an enterprise SaaS platform serving web and mobile clients.
- Contribute to **backend architecture and system-design decisions**; optimise performance, reliability, and scalability through caching, query tuning, and efficient data models.
- Integrate **third-party services and internal systems**; debug complex production issues and drive root-cause resolution with CloudWatch observability.
- Write clean, well-tested code (Jest); lead code reviews; mentor 6+ engineers; use **AI-assisted development (Claude Code)** to raise quality and velocity.

Consultant Project Leader / Backend Engineer — R Systems International
May 2021 – Dec 2023

Node.js, TypeScript, Express.js, PostgreSQL, MySQL, AWS (RDS, CloudWatch), Bitbucket, CI/CD

- Designed and built secure, high-reliability **Node.js transaction APIs and backend services** for **IATF (CIBC)**, an enterprise banking platform — validation, authorization, and audit logging on high-throughput, transaction-heavy workloads.
- Designed and optimised **PostgreSQL/MySQL schemas and queries**; ran production on AWS (RDS, CloudWatch) and resolved complex production issues to root cause.
- Owned CI/CD pipelines and releases; enforced code reviews and quality gates.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.
Sep 2020 – Apr 2021

Node.js, Express.js, TypeScript, PostgreSQL, MySQL, REST APIs, Google Maps API

- Architected **Krishak Fresh**, a grocery-delivery platform, end to end — designed backend services, REST APIs, and normalized schemas for products, orders, inventory, and **delivery/driver assignment** (directly logistics-relevant).
- Integrated Google Maps for geolocation, routing, and delivery workflows; built secure, scalable role-based backend.

Senior Software Engineer — STPL
Sep 2018 – Sep 2020

Node.js, Express.js, MySQL, REST APIs

- Built Node.js REST backends for enterprise facility-management apps with multi-location work-order management; optimised API communication, caching, and reliability under low-network, high-load conditions.

Software Engineer — Singsys Pte Ltd
Jan 2012 – Aug 2018

Node.js, JavaScript, MySQL, REST APIs

- Built **Tueetor**, a marketplace platform — backend REST APIs and data models; collaborated in Agile teams.

SELECTED PROJECTS

IATF — Instant Access to Deposited Funds (CIBC). High-reliability banking backend with secure Node.js transaction APIs, PostgreSQL, audit logging, and production observability.

Krishak Fresh — Grocery Delivery. Node.js backend with REST APIs, delivery/driver-assignment logic, and Google Maps routing — logistics-style order and delivery workflows.

Zillit — Enterprise SaaS. Scalable Node.js/TypeScript backend with REST APIs, third-party integrations, and real-time services on AWS.

EDUCATION

MCA — Master of Computer Applications, Uttar Pradesh Technical University (UPTU), 2012
BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — Remote • **Notice:** < 15 days • **Languages:** English, Hindi
