SUNIL GAUTAM

Senior Frontend Engineer — React.js • Angular • Next.js • TypeScript • Frontend Performance Optimization

Lucknow, India (Open to Remote — India / Global) | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 13+ years and deep **React.js / Next.js** expertise architecting performant, scalable, maintainable user interfaces for complex, **data-driven workflows**. Strong in frontend system design, component architecture, and **rendering and performance optimization** — code splitting, lazy loading, memoization, and virtualization for low-latency, responsive UIs. Solid **object-oriented** foundation in TypeScript/JavaScript, plus hands-on backend API development (Node.js/Express) against real data infrastructure. Partner closely with Product and Design to turn specs into refined products, own features end to end, and hold a high testing and code-quality bar (Jest, React Testing Library, Cypress).

KEY SKILLS

Frontend Core: React.js, Angular, Next.js, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, Component Architecture, Reusable Component Libraries, Responsive Web Design, Accessibility (a11y)

Rendering & Performance: Frontend Performance Optimization, Rendering Optimization, Code Splitting, Lazy Loading, Memoization, Virtualization / Windowing (large lists & tables), Bundle Optimization (Webpack), Core Web Vitals, Low-Latency UI

Data-Driven UI: Data-Intensive Dashboards, Tables & Grids, Real-Time Updates (Socket.IO), State Management, API-Driven Rendering

Engineering Foundations: Object-Oriented Programming (OOP), SOLID, Design Patterns, Frontend System Design, Clean/Maintainable Code

Testing & Quality: Jest, React Testing Library, Cypress, Mocha, Chai, Code & PR Reviews

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Backend API Servers, Data Modeling, Microservices, Event-Driven Architecture

Cloud & Tooling: AWS (EC2, S3, RDS, CloudWatch), Firebase, CI/CD Pipelines, Git / GitHub / GitLab / Bitbucket, Postman, Jira, AI-Assisted Development

Ways of Working: Agile / Scrum, Cross-Functional with Product & Design, End-to-End Feature Ownership, Technical Communication, Mentorship

WORK EXPERIENCE

Senior Frontend Engineer / Team Lead — HKK Entertainment Private Limited

Lucknow, India (Remote) • Jan 2024 – Present • React.js, Next.js, TypeScript, Redux, Node.js, Express.js, MongoDB, REST APIs, Socket.IO, Firebase, AWS

- Architect and build the React/Next.js frontend of **Zillit**, an enterprise SaaS platform with **data-intensive scheduling, call-sheet, and task-management interfaces** across web, Android, and iOS.
- Own **rendering and performance optimization** — code splitting, lazy loading, memoization, and list/table virtualization — delivering low-latency, responsive UIs on large data sets.
- Designed a reusable React/Next.js **component library and frontend system-design patterns**, cutting feature-development effort an estimated **20–25%** and improving UI consistency.
- Built **real-time, API-driven UI** with Socket.IO and Firebase — live notifications and socket-driven updates.
- Developed **backend API servers** (Node.js/Express) feeding the UI from the data layer; secured with JWT/OAuth/RBAC.
- Hold a high quality bar with **Jest / React Testing Library / Cypress**; partner with Product and Design and mentor 6+ engineers in Agile Scrum.

Senior Frontend / Full Stack Engineer — R Systems International

May 2021 – Dec 2023 • React.js, TypeScript, Node.js, PostgreSQL, MySQL, AWS RDS, AWS CloudWatch, Bitbucket, CI/CD

- Built the React frontend and **data-driven transaction UI** for **IATF (Instant Access to Deposited Funds) for CIBC**, an enterprise banking platform with a risk-based decision engine.
- Developed **backend API servers** and secure transaction APIs (Node.js/Express) with audit logging, validation, and authorization against the data infrastructure.
- Drove UI performance and reliability; managed CI/CD releases via Bitbucket and reduced production defects with reviews and automated-test coordination.
- Led engineering delivery of **WorkfloPlus**, a mobile-first SaaS turning manual processes into guided digital workflows.

Technical Solution Architect / Full Stack Engineer — Shivkaal Infotech Pvt. Ltd.

Sep 2020 – May 2021 • React/Node.js, Express.js, TypeScript, PostgreSQL, MySQL, REST/GraphQL, Google Maps API

- Built **Krishak Fresh**, a grocery-delivery e-commerce platform, from technology selection through delivery — catalog, cart, checkout, and order-management UIs.
- Designed end-to-end data models and REST/GraphQL API architecture; implemented role-based flows for customers, merchants, delivery partners, and admins.
- Integrated Google Maps APIs for geolocation, address validation, and delivery routing.

Senior Software Engineer (Frontend / Hybrid Mobile) — STPL

Sep 2018 – Sep 2020 • Angular, Ionic, Cordova, Node.js, Express.js, MySQL

- Built **fmPilot** and **fsElite Connect**, facility-management apps with multi-location **work-order dashboards** (web + hybrid Android/iOS).
- Implemented offline-first synchronization for field workers in low-network environments; optimized caching, background sync, and mobile performance.

Software Engineer (Frontend / Full Stack) — Singsys Pte Ltd

Jan 2012 – Aug 2018 • Angular, Ionic, Node.js, MySQL, JavaScript

- Built **Tueetor**, a tutor-student marketplace with search, profiles, and booking workflows — responsive web UI plus backend REST APIs.
- Collaborated with UI/UX designers and backend engineers in Agile teams to ship refined, responsive interfaces.

SELECTED PROJECTS

Zillit — Data-Intensive Production-Management SaaS: React/Next.js UI for scheduling, task management, and real-time collaboration. React.js, Next.js, Redux, TypeScript, Node.js, MongoDB, AWS.

IATF — Instant Access to Deposited Funds (CIBC): Banking platform with data-driven transaction UI, risk-based decisioning, secure APIs.

WorkfloPlus: Mobile-first SaaS turning manual processes into guided digital work instructions.

Krishak Fresh: E-commerce grocery-delivery platform with catalog, cart, checkout, and delivery workflows.

EDUCATION

MCA — Computers, Uttar Pradesh Technical University (UPTU) • 2012

BCA — Computer Applications, Bhopal University • 2009

CERTIFICATIONS

Project Management Assessment — LearnTube.ai • Sep 2026 • Credential ID: DJA-B-1-3045906-0 • Verify

ADDITIONAL INFORMATION

Total Experience: 13+ years • **Notice Period:** Less than 15 days • **Location:** Lucknow, India — Open to Remote (India / Global) • **Languages:** English, Hindi
