SUNIL GAUTAM

FRONTEND SOFTWARE ENGINEER • React / TypeScript • DESIGN SYSTEMS & UI INFRASTRUCTURE

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Frontend Software Engineer with 13+ years building web applications on a modern TypeScript + React stack. Core strength in **design systems and shared UI infrastructure** — the reusable component libraries, tooling, and patterns that boost frontend developer efficiency across large engineering orgs. Solid foundation in JavaScript/TypeScript, HTML5, CSS, algorithms, and application design; connects client apps to multiple **REST and GraphQL APIs**; and builds responsive interfaces for complex, data-intensive environments. Practised in unit and end-to-end testing, modern build tooling (Webpack), and CI/CD deployment workflows with feature flags. Monitors and optimises UI performance and contributes to frontend architectural decisions across teams.

TECHNICAL SKILLS

Core Web: TypeScript, JavaScript (ES6+), HTML5, CSS3, React.js, Next.js, Hooks/Context, Algorithms & Application Design, Responsive Design

Design Systems & UI Infra: Reusable Component Libraries, Design System Engineering, Frontend Developer Tooling, Component-Driven Architecture, Frontend Architecture Decisions

Testing: Unit Testing (Jest), E2E Testing (Playwright, Cypress), React Testing Library, Postman

Build & Tooling: Webpack, Babel, NPM / Yarn, Bundling, Code Splitting, Dependency Management

CI/CD & Deployment: Continuous Integration/Deployment, Feature Flags, Production Deploys, Build Management, Bitbucket/GitHub Pipelines

APIs & Backend: REST APIs, GraphQL, Node.js, Express.js, Socket.IO / Real-Time, Microservices

Performance & Data: UI Performance Monitoring & Optimization, Data-Intensive Responsive Apps, Code Splitting, Lazy Loading, Memoization

Cloud & Data Stores: AWS (EC2, S3, RDS, CloudWatch), Firebase, MongoDB, PostgreSQL, MySQL; Git / GitHub / GitLab / Bitbucket

PROFESSIONAL EXPERIENCE

Team Lead / Senior Frontend Engineer — HKK Entertainment Private Limited
Jan 2024 – Present

TypeScript, React.js, Next.js, Redux, Jest, GraphQL, REST, Webpack, Node.js, MongoDB, CI/CD, AWS

- Built and maintained **core UI infrastructure and a reusable Design System / component library** on a TypeScript + React stack, improving frontend developer efficiency and cutting feature effort ~20–25%.
- Connected client-side apps to multiple **REST and GraphQL APIs**; integrated application state across a large, data-intensive SaaS product (**Zillit**).
- **Monitored and optimised UI performance** (code splitting, lazy loading, memoization, render tuning) and drove frontend architectural decisions across teams.
- Wrote **unit tests (Jest)** and E2E suites; maintained quality gates for resilient releases.
- Participated in **CI/CD deployment workflows** with feature flags and commit-level testing to ship safely; managed build tooling and dependencies.
- Mentored 6+ engineers; collaborated with product, design, and backend on shared standards and tooling.

Consultant Project Leader — R Systems International
May 2021 – Dec 2023

React.js, TypeScript, Node.js, Express.js, PostgreSQL, REST, AWS, Bitbucket, CI/CD

- Built responsive, data-intensive React front-end and secure transaction flows for **IATF (Instant Access to Deposited Funds) for CIBC**, an enterprise banking platform with a risk-based decision engine.
- Managed **CI/CD deployments and web application builds** (Bitbucket pipelines) with production monitoring; reduced defects via code reviews and quality gates.
- Led delivery of **WorkfloPlus**, a mobile-first workflow SaaS; mentored developers.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.
Sep 2020 – May 2021

Node.js, Express.js, TypeScript, PostgreSQL, MySQL, REST / GraphQL

- Architected **Krishak Fresh**, a grocery-delivery e-commerce platform, end to end; designed **REST/GraphQL API** architecture and normalized data models.
- Implemented responsive UIs and role-based flows across customers, merchants, delivery partners, and admins.

Senior Software Engineer — STPL
Sep 2018 – Sep 2020

Angular, Ionic, Cordova, Node.js, Express.js, MySQL

- Built **fmPilot** and **fsElite Connect**, enterprise facility-management apps for multi-location, end-to-end work-order management.
- Implemented offline-first sync and caching for field workers in low-network, high-data-load environments; optimized performance and cross-platform compatibility.

Software Engineer — Singsys Pte Ltd
Jan 2012 – Aug 2018

Angular, Ionic, Node.js, MySQL, JavaScript

- Built **Tueetor**, a tutor-student marketplace with search, profiles, and booking workflows — responsive frontend plus backend REST APIs.
- Collaborated with designers and backend engineers in Agile teams to ship responsive, cross-browser interfaces.

SELECTED PROJECTS

Zillit — Enterprise SaaS UI Platform. TypeScript/React design system + component library, REST/GraphQL integration, and data-intensive responsive UIs. Tech: React.js, Next.js, TypeScript, Redux, Jest, Webpack, GraphQL, Node.js, AWS.

IATF — Instant Access to Deposited Funds (CIBC). Data-intensive banking platform with secure transaction flows and risk-based decisioning.

Krishak Fresh. E-commerce platform with REST/GraphQL API architecture, architected end to end.

fmPilot / fsElite Connect. Facility/maintenance work-order platforms with offline-first sync for field teams.

EDUCATION

MCA — Master of Computer Applications, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — open to Remote • **Notice:** < 15 days • **Languages:** English, Hindi
