SUNIL GAUTAM

FRONTEND ENGINEER (React / Next.js) • FRONTEND ARCHITECTURE • DESIGN SYSTEMS

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Frontend Engineer with 13+ years and a strong **architectural mindset** — building modular, scalable frontend frameworks and design systems on **React and Next.js**, not just applications. Deep with **SSR/CSR/hybrid rendering trade-offs**, reusable UI primitives and layout systems, and UI **state, caching, hydration, and layout performance** at scale. Works across the stack with **Node.js API proxy/integration layers** (data routing, transformation, caching) and REST/OpenAPI, and has strong exposure to **security-oriented, IAM-style UIs** — role/permission management, RBAC, and JWT/OAuth. Product-first engineer who cares about developer experience, architecture, and maintainability, and shapes the patterns other developers build on.

TECHNICAL SKILLS

Core: React.js (architecture, not just usage), Next.js, TypeScript, JavaScript (ES6+), Component-Driven Architecture, Frontend Frameworks

Rendering & Performance: SSR / CSR / Hybrid Rendering, Hydration, UI State Management (Redux, Context), Caching, Layout Performance, Code Splitting, Memoization, Testability

Design Systems: Reusable UI Primitives & Layout Systems, Component Libraries, Design Systems, Tailwind CSS, Bootstrap, Accessibility

APIs & Backend: Node.js API Proxy / Integration Layers (routing, transformation, caching), REST APIs, GraphQL, OpenAPI, Express.js

Security / IAM UIs: RBAC, Role/Permission & Multi-Tenant Views, JWT, OAuth, Authentication & Authorization, Secure Data Design

Tooling & Practices: Webpack, npm, Git/Bitbucket, CI/CD, Automated Testing (Jest), Code Reviews, Agile, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Team Lead / Frontend Architect — HKK Entertainment Private Limited
Jan 2024 – Present

React.js, Next.js, TypeScript, Redux, Node.js, GraphQL, REST APIs, Tailwind, AWS, Jest

- Architected a **modular, scalable React/Next.js frontend framework and design system** for **Zillit** — reusable UI primitives and layout systems that cut feature effort ~20–25% and standardized patterns across a large codebase.
- Implemented **SSR/CSR/hybrid rendering** and tuned **UI state, caching, hydration, and layout performance** (code splitting, lazy loading, memoization) for fast, responsive consoles.
- Built a **multi-tenant, role/permission-scoped UI** with RBAC and secure **JWT/OAuth** authorization — org/role/permission views across tenants.
- Designed **Node.js API integration/proxy patterns** (data routing, transformation, caching) between frontend and backend services; lead code reviews and mentor 6+ engineers.

Consultant Project Leader / Senior Engineer — R Systems International
May 2021 – Dec 2023

React.js, TypeScript, Node.js, Express.js, PostgreSQL, REST APIs, Bitbucket, CI/CD

- Built **security-oriented UIs and secure APIs** for **IATF (CIBC)**, an enterprise banking platform — a strong, infrastructure-grade fit for IAM/authorization interfaces with audit and authorization logic.
- Delivered clean, testable, maintainable React front-end and Node.js integration layers; ran CI/CD, code reviews, and quality gates.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.
Sep 2020 – Apr 2021

Node.js, Express.js, TypeScript, PostgreSQL, REST / GraphQL / OpenAPI

- Architected **Krishak Fresh** end to end; designed REST/GraphQL API architecture and role-based access across **4 user roles** (customers, merchants, delivery partners, admins).

Senior Software Engineer — STPL
Sep 2018 – Sep 2020

Angular, Ionic, Node.js, Express.js, MySQL, REST APIs

- Built responsive admin/console UIs for enterprise facility-management apps with role-based access; consumed REST APIs and optimised performance.

Software Engineer — Singsys Pte Ltd
Jan 2012 – Aug 2018

JavaScript, Angular, Node.js, MySQL, REST APIs

- Built **Tueetor**, a marketplace platform — frontend interfaces plus backend REST APIs; collaborated with UI/UX designers in Agile teams.

SELECTED PROJECTS

Zillit — Enterprise SaaS Console. React/Next.js frontend framework + design system with SSR/CSR rendering, multi-tenant RBAC role/permission views, and a Node.js API integration layer.

IATF — Instant Access to Deposited Funds (CIBC). Security/infrastructure-oriented banking UI with secure Node.js APIs, audit logging, and authorization.

Krishak Fresh. Platform with REST/GraphQL/OpenAPI architecture and role-based access across multiple user types.

EDUCATION

MCA — Master of Computer Applications, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — Remote (Contract-friendly) • **Notice:** < 15 days • **Languages:** English, Hindi
