SUNIL GAUTAM

SENIOR SOFTWARE ENGINEER (React) • FRONT-END ARCHITECTURE • REAL-TIME & DATA-INTENSIVE UIs

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Senior Software Engineer with 13+ years and high engineering standards, specializing in React, state management, and front-end architecture for real-time, data-intensive applications. Owns projects end to end — speccing, design, development, testing, deployment, release, and observability — and delivers clean, testable, reusable, modular, well-documented code. Strong grounding in system design, data structures/algorithms, and advanced performance optimisation, with hands-on backend experience in Node.js. Built real-time, multi-user collaborative interfaces and data-dense dashboards over large datasets. Thrives in fast-paced scale-ups with a bottom-up, high-ownership culture: identifies pain points, iterates with tight feedback loops, and levels up peers through RFCs, code reviews, mentoring, and hiring.

TECHNICAL SKILLS

Frontend & Architecture: React.js, Next.js, TypeScript, JavaScript (ES6+), State Management (Redux, Context), Front-End Architecture, Component Design Systems, Reusable/Modular Code, HTML5, CSS3

Real-Time & Data-Intensive: Socket.IO, Real-Time Collaborative Editing, Multi-User Sync, Data-Dense Dashboards, WebSockets, Firebase Realtime

Engineering Foundations: System Design, Data Structures & Algorithms, Data-Intensive Application Concepts, Advanced Performance Optimisation (code splitting, memoisation, lazy loading, rendering)

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Microservices, Event-Driven Systems

Lifecycle & Ops: Testing (Jest, React Testing Library, Cypress), CI/CD & Releasing, Observability/Monitoring (AWS CloudWatch), Deployment, Documentation, RFCs, Code Reviews

Cloud & Data: AWS (EC2, S3, RDS, CloudWatch), Firebase, MongoDB, PostgreSQL, MySQL, Data Modeling, Query Optimization

Ways of Working: End-to-End Ownership, Agile/Scrum, Cross-Functional Teams, Mentoring & Hiring, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Team Lead / Senior Frontend Engineer — HKK Entertainment Private Limited

Jan 2024 – Present

React.js, Next.js, TypeScript, Redux, Node.js, Express.js, MongoDB, Socket.IO, Firebase, AWS, CI/CD, CloudWatch

- Own features end to end — **speccing, design, development, testing, release, and observability** — for **Zillit**, an enterprise SaaS platform for scheduling, task management, and team collaboration.
- Architected the **front-end and state management** (React/Next.js + Redux) and a reusable, modular component library, cutting feature effort ~20–25% and standardizing patterns across a large codebase.
- Built **real-time, multi-user collaborative interfaces** with Socket.IO and Firebase — socket-driven updates and live notifications keeping many concurrent users in sync.
- Delivered **data-dense dashboards and board/schedule views** over large datasets; applied **advanced performance optimisation** (code splitting, memoisation, lazy loading, render tuning) for smooth interaction at scale.
- Instrumented **observability with AWS CloudWatch** and owned CI/CD release pipelines — operational responsibility for what I ship.
- Level up peers through **RFCs, code reviews, documentation**, mentoring 6+ engineers, and participating in hiring and onboarding.
- Introduced **AI coding tools/agents** to raise code quality and delivery speed — relevant to Mimica's AI-in-the-loop workflows.

Consultant Project Leader — R Systems International

May 2021 – Dec 2023

React.js, TypeScript, Node.js, Express.js, PostgreSQL, MySQL, AWS RDS, AWS CloudWatch, Bitbucket, CI/CD

- Owned React front-end and secure transaction flows end-to-end for **IATF (Instant Access to Deposited Funds) for CIBC**, an enterprise banking platform with a risk-based decision engine — a data-intensive, high-reliability system.
- Ran **CI/CD deployments and production monitoring** (Bitbucket pipelines, AWS RDS, CloudWatch observability); reduced defects via code reviews and quality gates.
- Led engineering delivery of **WorkfloPlus**, a mobile-first SaaS converting manual processes into guided digital workflows; mentored developers.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.

Sep 2020 – May 2021

Node.js, Express.js, TypeScript, PostgreSQL, MySQL, REST/GraphQL

- Owned system design and full lifecycle of **Krishak Fresh**, a grocery-delivery e-commerce platform — from technology selection to launch.
- Designed normalized relational schemas and REST/GraphQL APIs across products, orders, inventory, and delivery, improving query performance and scalability.

Senior Software Engineer — STPL

Sep 2018 – Sep 2020

Angular, Ionic, Cordova, Node.js, Express.js, MySQL

- Built **fmPilot** and **fsElite Connect**, enterprise facility-management apps for multi-location, end-to-end work-order management.
- Implemented **offline-first synchronization** and background sync for field workers in low-network environments; optimized caching and performance.

Software Engineer — Singsys Pte Ltd **Jan 2012 – Aug 2018**

Angular, Ionic, Node.js, MySQL, JavaScript

- Built **Tueetor**, a tutor-student marketplace with search, profiles, and booking workflows — frontend interfaces plus backend REST APIs.
- Collaborated with designers and backend engineers in Agile teams to ship responsive interfaces.

SELECTED PROJECTS

Zillit — Real-Time Production/Task-Management SaaS. React/Next.js platform with Redux state management, real-time multi-user collaboration, and data-dense scheduling/board views. Tech: React.js, Next.js, Redux, TypeScript, Node.js, MongoDB, Socket.IO, AWS.

IATF — Instant Access to Deposited Funds (CIBC). Data-intensive banking platform with secure transaction flows and risk-based decisioning.

Krishak Fresh. E-commerce grocery-delivery platform with normalized data models and full-lifecycle ownership.

WorkfloPlus. Mobile-first SaaS turning manual processes into guided digital work instructions.

EDUCATION

MCA — Computers, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — open to Remote • **Notice:** < 15 days • **Languages:** English, Hindi
