SUNIL GAUTAM

SENIOR FRONTEND ENGINEER (React.js / TypeScript) • FULL-STACK WEB (MERN) • TEAM LEAD

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Senior Frontend Engineer and Team Lead with 13+ years building large-scale, component-based web applications with React.js, Next.js, and TypeScript. Deep hands-on strength in the fundamentals of client-side engineering — JavaScript (ES6+), HTML5, CSS3, JavaScript modules, responsive layout, and accessibility — paired with reusable component libraries, well-tested code, and modern build tooling (Webpack, code splitting). Delivered secure, enterprise portal experiences spanning Identity & Access Management, authentication and credentials (JWT/OAuth/RBAC), user and group management, and payment/subscription-style billing flows. Comfortable in cloud-native contexts (AWS, CI/CD) and full-stack Node.js when a feature needs it. Early and proactive adopter of AI coding tools and agents to raise code quality, speed delivery, and improve system stability. Collaborates closely with Product, UX, and Backend to turn complex requirements into elegant, responsive interfaces.

TECHNICAL SKILLS

Frontend Core: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, JavaScript Modules, Responsive Web Design, Web Accessibility (a11y), Reusable Component Libraries, Angular, Ionic

Styling & UI: Tailwind CSS, Bootstrap, CSS Grid/Flexbox, Component-Driven Design, Cross-Browser Layout

Build & Tooling: Webpack, Bundle Configuration, Code Splitting, Lazy Loading, Memoization, Performance Optimization, Git / GitHub / GitLab / Bitbucket

Testing: Jest, React Testing Library, Cypress, Selenium, Postman, Test-Driven Component Development

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Socket.IO / Real-Time, Microservices

Security & Identity: IAM, Authentication & Authorization, JWT / OAuth, RBAC, Session & Credential Management

Cloud & DevOps: AWS (EC2, S3, RDS, CloudWatch), Firebase, CI/CD Pipelines, Cloud-Native Delivery, Kubernetes (familiar)

Databases: MongoDB, PostgreSQL, MySQL, Data Modeling, Query Optimization

Practices: AI-Assisted Development (agents/tooling), Agile/Scrum, Code & PR Reviews, Architecture Reviews, Mentoring, Sprint Planning

PROFESSIONAL EXPERIENCE

Team Lead — HKK Entertainment Private Limited

Jan 2024 – Present

React.js, Next.js, TypeScript, Redux, Node.js, Express.js, MongoDB, REST APIs, Socket.IO, Firebase, AWS S3, AWS CloudWatch

- Lead frontend architecture and full-stack development of **Zillit**, an enterprise SaaS production-management platform delivered as a unified web portal alongside Android and iOS apps for the global entertainment industry.
- Built a **reusable React/Next.js component library** and standardized component-based patterns, cutting feature development effort ~20–25% while improving UI consistency and accessibility across the portal.
- Engineered secure account and access experiences — **authentication, credentials, and role-based permissions** (JWT/OAuth/RBAC) for user and group management across multiple organizations.
- Delivered responsive, standards-compliant UIs and improved perceived performance through **lazy loading, code splitting, memoization**, and API-response optimization.
- Built real-time collaboration in the browser with **Socket.IO and Firebase Cloud Messaging** — live notifications, socket-driven updates, and group calling.
- Proactively introduced **AI coding tools and agents** into the workflow (scaffolding, test generation, code review) to boost code quality, speed, and stability across the team.
- Led sprint planning, code/PR reviews, architecture discussions, QA coordination, and release planning while mentoring 6+ engineers; partnered cross-functionally with Product, UX, and QA in Agile Scrum.

Consultant Project Leader — R Systems International

May 2021 – Dec 2023

React.js, TypeScript, Node.js, Express.js, PostgreSQL, MySQL, AWS RDS, AWS CloudWatch, Bitbucket, CI/CD

- Built secure, responsive front-end and transaction flows for **IATF (Instant Access to Deposited Funds) for CIBC**, an enterprise banking platform driven by a risk-based decision engine.
- Implemented banking-grade UI and API integration with **audit logging, validation, and authorization** — directly relevant to account-security and billing/subscription-style flows.
- Led engineering delivery of **WorkfloPlus**, a mobile-first enterprise SaaS converting manual processes into guided digital workflows for connected workers.
- Managed **CI/CD deployments** via Bitbucket pipelines; used AWS RDS for high-availability data and CloudWatch for production monitoring in a cloud context.
- Reduced production defects through code reviews, automated testing coordination, and sprint quality gates; mentored junior developers.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd. **Sep 2020 – May 2021**

Node.js, Express.js, TypeScript, PostgreSQL, MySQL, REST/GraphQL, Google Maps API

- Architected **Krishak Fresh**, a grocery-delivery e-commerce platform, from technology selection through delivery — including catalog, cart, **payments/checkout**, and order-management UIs.
- Designed end-to-end data models and REST/GraphQL API architecture across products, orders, inventory, payments, and delivery.
- Implemented role-based permissions and secure flows for customers, merchants, delivery partners, and administrators; integrated Google Maps for geolocation and routing.

Senior Software Engineer — STPL **Sep 2018 – Sep 2020**

Angular, Ionic, Cordova, Node.js, Express.js, MySQL

- Built **fmPilot** and **fsElite Connect**, enterprise facility-management apps for multi-location, end-to-end work-order management (web + hybrid Android/iOS).
- Implemented **offline-first synchronization** for field workers in low-network environments; optimized caching, mobile performance, and background sync.

Software Engineer — Singsys Pte Ltd **Jan 2012 – Aug 2018**

Angular, Ionic, Node.js, MySQL, JavaScript

- Built **Tueetor**, a tutor-student marketplace with search, profiles, and booking workflows — responsive web front-end plus backend REST APIs.
- Collaborated with UI/UX designers and backend engineers in Agile teams to ship refined, responsive interfaces.

SELECTED PROJECTS

Zillit — Enterprise Production-Management SaaS Portal. Unified React/Next.js web portal with IAM, user/group management, real-time collaboration, and RBAC. Tech: React.js, Next.js, Redux, TypeScript, Node.js, MongoDB, AWS.

IATF — Instant Access to Deposited Funds (CIBC). Enterprise banking platform with secure transaction flows, risk-based decisioning, and banking-grade data models.

Krishak Fresh. E-commerce grocery-delivery platform with catalog, cart, payments, and delivery/driver assignment workflows.

WorkfloPlus. Mobile-first SaaS turning manual processes into guided digital work instructions for connected workers.

EDUCATION

MCA — Computers, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009
