SUNIL GAUTAM

SOFTWARE ENGINEER • Node.js • GraphQL • AWS • CI/CD

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Software Engineer with 13+ years building high-performance, scalable web applications and backend services with **Node.js**, **GraphQL**, and **AWS**. Strong on **GraphQL API development and integration** — designing composition/aggregation layers over multiple data sources — and on Node.js module design, secure and scalable AWS solutions, and disciplined **CI/CD** with Git. Focused on performance and efficient data transmission (caching, compression, payload optimization), clean code, and code quality. Works independently and collaboratively in agile teams, contributes to code reviews, and troubleshoots/debugs production applications. Bonus depth in **design systems** (reusable component libraries).

TECHNICAL SKILLS

Backend & APIs: Node.js, Express.js, GraphQL (schema design, resolvers, API composition/aggregation), REST APIs, Backend Integrations, Microservices

AWS: EC2, S3, RDS, CloudWatch, IAM, Secure & Scalable Cloud Solutions (AWS AppSync / serverless: familiar / open to)

CI/CD & Version Control: CI/CD Pipelines, Deployment Automation, Bitbucket, Git, GitHub, GitLab

Performance: Performance Optimization, Efficient Data Transmission (caching, compression, payload tuning), Scalability, Lazy Loading, Memoization

Frontend & Design Systems: React.js, Next.js, TypeScript, JavaScript (ES6+), Reusable Component Libraries / Design Systems

Databases: PostgreSQL, MongoDB, MySQL, Data Modeling, Query Optimization

Ways of Working: Agile/Scrum, Code Reviews, Debugging & Troubleshooting, Secure Coding, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Team Lead / Senior Engineer — HKK Entertainment Private Limited
Jan 2024 – Present

Node.js, Express.js, GraphQL, React.js, Next.js, TypeScript, MongoDB, AWS, CI/CD

- Build **Node.js backend modules and GraphQL/REST APIs** for **Zillit**, an enterprise SaaS platform, aggregating data from multiple services for efficient frontend consumption.
- Optimise applications for **performance, scalability, and user experience** — caching, payload/data-transmission tuning, lazy loading, and memoization.
- Maintain code quality with **Git** and **CI/CD pipelines**; contribute to and lead code reviews; troubleshoot and debug production issues.
- Built a reusable **design system / component library** (~20–25% less feature effort); deployed on AWS; mentor 6+ engineers in an agile team.

Consultant Project Leader / Backend Engineer — R Systems International
May 2021 – Dec 2023

Node.js, Express.js, REST APIs, PostgreSQL, AWS (RDS, CloudWatch), Bitbucket, CI/CD

- Built secure, scalable **Node.js backend services and APIs** for **IATF (CIBC)**, an enterprise banking platform, with validation, authorization, and audit logging.
- Implemented **CI/CD pipelines (Bitbucket)** and deployment automation; operated on AWS (RDS, CloudWatch) and resolved production issues.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.
Sep 2020 – May 2021

Node.js, Express.js, GraphQL, REST APIs, PostgreSQL, MySQL

- Architected **Krishak Fresh**, an e-commerce platform, end to end; designed **GraphQL/REST API** architecture over products, orders, inventory, and delivery data.
- Built secure, scalable backend services with role-based access and optimized relational schemas.

Senior Software Engineer — STPL
Sep 2018 – Sep 2020

Node.js, Express.js, MySQL, REST APIs

- Built Node.js REST backends for enterprise facility-management apps; optimised API communication, caching, and data transmission for low-network conditions.

Software Engineer — Singsys Pte Ltd
Jan 2012 – Aug 2018

Node.js, JavaScript, MySQL, REST APIs

- Built **Tueetor**, a marketplace platform — backend REST APIs plus frontend interfaces; collaborated in Agile teams.

SELECTED PROJECTS

Zillit — Enterprise SaaS. Node.js + GraphQL/REST API layer aggregating multiple services, with performance-optimised data transmission and a reusable design system, on AWS.

IATF — Instant Access to Deposited Funds (CIBC). Secure Node.js backend services and APIs with CI/CD automation on AWS.

Krishak Fresh. E-commerce platform with GraphQL/REST API architecture, architected end to end.

EDUCATION

MCA — Master of Computer Applications, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — Remote • **Notice:** < 15 days • **Languages:** English, Hindi
