PROFESSIONAL SUMMARY

Senior Full Stack Developer with 13+ years and a strong **ownership mindset** — taking features from idea to production, solo or by leading a small team. Deep in **Node.js (TypeScript)** and **React.js**, with expert-level **PostgreSQL** (optimized queries, migrations, tuning) from high-reliability banking systems. Architects high-performance backend services and secure APIs, understands the Node event loop and scalability, and leads by example through code reviews and mentoring. A genuine **self-starter and AI enthusiast** — uses LLMs (Anthropic Claude, OpenAI) and AI-assisted development daily — who stays current with the JavaScript and AI ecosystem. *Previously delivered enterprise banking (CIBC) at R Systems International.*
