SUNIL GAUTAM

FULL STACK DEVELOPER • React.js / Next.js • Node.js / Express • TypeScript • Python • PostgreSQL / MongoDB • AWS • Remote

Lucknow, India (Remote) | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168 | github.com/007sunilgautam

PROFESSIONAL SUMMARY

Full Stack Developer with 13+ years building and shipping production web applications end to end — React.js, Next.js and TypeScript on the front end, Node.js and Express.js on the back end. Hands-on with REST API and GraphQL design, third-party integrations, and relational and document databases (PostgreSQL, MySQL, MongoDB), plus secure authentication and authorization (JWT, OAuth, RBAC) and deployment on AWS with CI/CD. Built real-time collaboration with Socket.IO and Firebase, offline-first sync for field teams, and reusable component libraries that cut feature effort ~20–25%. Currently Team Lead for Zillit, an enterprise SaaS across web, Android and iOS — owning architecture decisions, code reviews, performance, accessibility and Jest testing through release, while mentoring 6+ engineers in Agile/Scrum delivery with Product and Design. Remote-first across time zones.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, Redux, Context API, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive & Adaptive UI, Reusable Components / Design Systems, Accessibility

Backend: Node.js, Express.js, Python, REST APIs, GraphQL, Microservices, API-First Design, Third-Party & Payment Integrations, PHP / Laravel

Databases: PostgreSQL, MySQL, MongoDB, Amazon DynamoDB (Single-Table Design), Data Modeling, Schema Design, Query Optimization

Auth & Security: JWT, OAuth, RBAC, Secure Coding, Application Security

Real-Time & Offline: Socket.IO, Firebase, WebSockets, Offline-First Sync, Background Sync, Caching, Connectivity-Resilient UX

Cloud & DevOps: AWS (EC2, S3, RDS, CloudWatch), Firebase, CI/CD Pipelines, Git / GitHub / Bitbucket, Webpack

Testing & Quality: Jest, Unit Testing, Cypress, Debugging & Troubleshooting, Code Reviews, Performance & Scalability Optimization

Cross-Platform Mobile: Hybrid Web/Mobile (Ionic, Cordova) — iOS + Android from a shared codebase

Leadership & Practices: Technical Leadership, Mentoring, Agile / Scrum, Product & UI/UX Collaboration, AI-Assisted Development (Claude)

PROFESSIONAL EXPERIENCE

Team Lead / Full Stack Developer — HKK Entertainment Private Limited

Jan 2024 – Present

React.js, Next.js, TypeScript, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, Amazon DynamoDB, REST APIs, Socket.IO, Firebase, JWT/OAuth, AWS, Jest, CI/CD

- Lead development of Zillit, an enterprise SaaS platform across web, Android and iOS, with a Node.js/Express backend and React/Next.js frontend; built a reusable component library that cut feature effort ~20–25%.
- Design and build RESTful APIs and third-party integrations; implement authentication and authorization with JWT, OAuth and RBAC.
- Modeled high-throughput data in **Amazon DynamoDB using single-table design** (composite PK/SK, key overloading and GSIs) for low-latency activity, notifications and task/schedule access at scale.
- Built real-time collaboration (Socket.IO / Firebase) and connectivity-resilient flows; own performance, scalability, accessibility and Jest testing through to release.
- Make architecture decisions, lead code reviews, mentor 6+ engineers, and collaborate with Product and UI/UX Design; use AI-assisted tooling (Claude) daily for prototyping, coding and testing.

Consultant Project Leader / Full Stack Developer — R Systems International

May 2021 – Dec 2023

React.js, TypeScript, Node.js, Express.js, PostgreSQL, MySQL, REST APIs, AWS, Bitbucket, CI/CD

- Built and maintained web applications and secure REST APIs for IATF (CIBC), an enterprise banking platform, with PostgreSQL/MySQL and JWT/OAuth authorization.
- Managed CI/CD pipelines (Bitbucket) and production releases on AWS; troubleshot and debugged production issues.
- Owned quality gates, testing, secure auth and release reliability; ran code reviews across the team.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.

Sep 2020 – Apr 2021

Node.js, Express.js, TypeScript, PostgreSQL, REST APIs, GraphQL, Google Maps API

- Architected Krishak Fresh, an e-commerce platform, end to end; designed REST and GraphQL APIs and efficient relational schemas.
- Implemented secure backend architecture and role-based access; built responsive frontend interfaces with mapping and geolocation.

Senior Software Engineer (Full Stack / Cross-Platform) — STPL

Sep 2018 – Sep 2020

Node.js, Express.js, Angular, TypeScript, Ionic, Cordova, MySQL, REST APIs, Offline Sync

- Led development of fmPilot and fsElite Connect — facility-management and maintenance work-order platforms for multi-location field teams — with Node.js REST backends, delivered as hybrid iOS + Android + web from a shared codebase.
- Built offline-first synchronization, caching and background sync so field workers stay productive on slow or lost connectivity.
- Implemented role-based access and REST API integration with clear error, loading and offline states; optimised API communication and mobile performance across devices.

Software Engineer (Full Stack) — Singsys Pte Ltd **Jan 2012 – Aug 2018**

Node.js, JavaScript, .NET, Angular, Ionic, PHP, Laravel, MySQL, REST APIs

- Built Tueetor, a tutor–student marketplace — frontend interfaces plus backend REST APIs in Node.js and PHP/Laravel.
- Delivered responsive web and hybrid mobile apps; collaborated with UI/UX designers and backend engineers in Agile teams to ship intuitive user flows.

SELECTED PROJECTS

Zillit — Enterprise SaaS (Web + Android + iOS). Node.js/Express and React/Next.js platform with REST APIs, JWT/OAuth/RBAC, real-time collaboration, a reusable component library, and **Amazon DynamoDB (single-table design)** for high-throughput data — deployed on AWS.

IATF — Instant Access to Deposited Funds (CIBC). Enterprise banking platform with secure Node.js REST APIs, PostgreSQL and Bitbucket CI/CD.

fmPilot / fsElite Connect — Field Operations & Maintenance. Hybrid iOS + Android + web work-order platforms with Node.js backends and offline-first sync for field workers.

Krishak Fresh — E-Commerce. Architected end to end with REST/GraphQL APIs, relational schemas and role-based flows.

Tueetor — Marketplace. Full-stack tutor–student platform built with Node.js and PHP/Laravel.

Portfolio. GSAP-animated personal site — github.com/007sunilgautam.

CERTIFICATIONS

Python Programming — [Course / Provider], 2026 (course completed; applying to backend/automation work)

EDUCATION

MCA — Master of Computer Applications, Uttar Pradesh Technical University (UPTU), 2012

BCA — Computer Applications, Bhopal University, 2009

ADDITIONAL

Experience: 13+ years • **Location:** Lucknow, India — Remote • **Notice:** < 15 days • **Languages:** English, Hindi
