

SUNIL GAUTAM

TECHNICAL SOLUTION ARCHITECT | TEAM LEAD | SENIOR FULL STACK ENGINEER (MERN + AWS)

Lucknow, India | +91-8081433959 | business.sunilgautam@gmail.com | linkedin.com/in/sunil-gautam-061312168

PROFESSIONAL SUMMARY

Technical Solution Architect and Team Lead with 13+ years of experience designing, building, and scaling enterprise web, SaaS, and hybrid mobile applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, PostgreSQL, MySQL, GraphQL, AWS, and Firebase. Proven expertise in solution architecture, system design, microservices, real-time applications, authentication and authorization (JWT/OAuth/RBAC), cloud deployment, CI/CD pipelines, performance optimization, and database design.

Experienced in leading Agile engineering teams, mentoring developers, conducting architecture and code reviews, managing sprint planning, and delivering production-ready SaaS platforms across Banking, Entertainment, Facility Management, and E-commerce domains. Strong background in secure, scalable, event-driven distributed systems with reusable component libraries and API-first architecture.

CORE COMPETENCIES

Solution Architecture • Full Stack Development (MERN) • React.js & Next.js • TypeScript • Node.js & Express.js • GraphQL & REST APIs • System Design • Microservices Architecture • Real-Time Applications (Socket.IO) • Authentication & Authorization (JWT/OAuth/RBAC) • AWS Cloud Services (EC2, S3, RDS, CloudWatch) • Firebase Services • PostgreSQL / MongoDB / MySQL • CI/CD & Bitbucket Pipelines • Agile Scrum Leadership • Technical Mentorship • Code & PR Reviews • Sprint Planning • Performance Optimization • Secure Software Development

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL

Frontend: React.js, Next.js (3 yrs), Redux, Angular, Ionic, Tailwind CSS, Bootstrap, Webpack, Responsive Web Design

Backend & APIs: Node.js, Express.js, GraphQL (1 yr), REST APIs, Microservices, Socket.IO, Real-Time Applications

Databases: PostgreSQL (1 yr), MongoDB, MySQL, AWS RDS (2 yrs), Data Modeling, Query Optimization

Cloud & DevOps: AWS EC2, AWS S3, AWS RDS, AWS CloudWatch (1.5 yrs), Firebase Auth/Storage/FCM, CI/CD Pipelines, Bitbucket (7 yrs), Git, GitHub, GitLab

Architecture & Leadership: SaaS Architecture, System Design, Event-Driven Architecture, RBAC, JWT/OAuth, Technical Roadmaps, Sprint Planning, Mentoring, Performance Optimization

Tools: Postman, Jira, Swagger/OpenAPI, Agile/Scrum

PROFESSIONAL EXPERIENCE

Team Lead — HKK Entertainment Private Limited

Jan 2024 – Present

Technology: React.js, Next.js, TypeScript, Redux, Node.js, Express.js, MongoDB, REST APIs, Socket.IO, Firebase, AWS S3, AWS CloudWatch

- Lead architecture and full-stack development of Zillit, an enterprise SaaS production management platform used across web, Android, and iOS applications for the global entertainment industry.
- Designed scalable MERN-based architecture supporting scheduling, call sheets, document management, task management, and role-based permissions.
- Built reusable React/Next.js component libraries, reducing feature development effort by an estimated 20–25% while improving UI consistency.
- Engineered real-time collaboration using Socket.IO and Firebase Cloud Messaging, including group calling, live notifications, and socket-driven updates.
- Implemented secure authentication and authorization using JWT, OAuth, and RBAC.
- Designed and optimized REST APIs for efficient frontend data fetching.
- Improved frontend performance through lazy loading, code splitting, memoization, and API optimization.

- Led sprint planning, code/PR reviews, architecture discussions, QA coordination, and release planning while mentoring 6+ engineers.
- Collaborated cross-functionally with Product Managers, Designers, QA Engineers, and stakeholders following Agile Scrum methodology.

Consultant Project Leader — R Systems International

May 2021 – Dec 2023

Technology: Node.js, React.js, TypeScript, PostgreSQL, MySQL, AWS RDS, AWS CloudWatch, Bitbucket, CI/CD

- Led development of IATF (Instant Access to Deposited Funds) for CIBC, an enterprise banking platform using a risk-based decision engine.
- Designed and implemented secure transaction APIs and banking-grade backend services using Node.js and Express.js, including audit logging, validation, and authorization.
- Managed CI/CD deployments through Bitbucket pipelines and coordinated production releases.
- Utilized AWS RDS for high-availability relational databases and CloudWatch for production monitoring.
- Led engineering delivery of WorkfloPlus, a mobile-first enterprise SaaS platform converting manual processes into guided digital workflows for connected workers.
- Reduced production defects through code reviews, automated testing coordination, and sprint quality gates; mentored junior developers.

Technical Solution Architect — Shivkaal Infotech Pvt. Ltd.

Sep 2020 – May 2021

Technology: Node.js, Express.js, TypeScript, PostgreSQL, MySQL, Google Maps API, REST APIs

- Architected Krishak Fresh, a grocery delivery e-commerce platform, from technology selection through delivery.
- Designed end-to-end data models and REST/GraphQL API architecture covering products, orders, inventory, payments, and delivery management.
- Designed a normalized relational database schema, improving query performance and scalability.
- Integrated Google Maps APIs for real-time geolocation, address validation, and delivery routing.
- Implemented secure backend architecture and role-based permissions for customers, merchants, delivery partners, and administrators.

Senior Software Engineer — STPL

Sep 2018 – Sep 2020

Technology: Ionic, Angular, Cordova, Node.js, Express.js, MySQL

- Developed fmPilot and fsElite Connect, enterprise facility management applications for multi-location, end-to-end work-order management.
- Delivered hybrid Android and iOS mobile applications using Ionic Framework and Cordova, consuming REST APIs and implementing role-based access control.
- Implemented offline-first synchronization for field workers in low-network environments.
- Optimized API communication, mobile performance, caching strategies, and background synchronization.

Software Engineer — Singsys Pte Ltd

Jan 2012 – Aug 2018

Technology: Angular, Ionic, Node.js, MySQL, JavaScript

- Developed Tueetor, a tutor-student marketplace platform with search, profiles, and booking workflows.
- Built scalable frontend interfaces and backend REST APIs using MEAN/MERN technologies.
- Delivered responsive web applications and hybrid mobile applications.
- Collaborated with UI/UX designers and backend engineers in Agile development teams.

SELECTED SAAS & PRODUCT PROJECTS

Zillit — Enterprise Production Management SaaS

Cloud-based SaaS platform covering scheduling, document sharing, task management, real-time collaboration (Socket.IO/Firebase), and role-based access control. Tech: React.js, Next.js, Redux, Node.js, MongoDB, REST APIs, AWS.

IATF — Instant Access to Deposited Funds (CIBC)

Enterprise banking platform with secure Node.js transaction APIs, risk-based decisioning, and banking-grade data models.

WorkfloPlus

Mobile-first SaaS platform converting paper-based and manual processes into guided digital work instructions for connected workers.

Krishak Fresh

E-commerce grocery delivery platform with accounts, catalog, cart, order management, and delivery/driver assignment workflows.

fmPilot / fsElite Connect

Facility management applications covering service-provider registration, dispatch, work orders, and maintenance tracking.

Tueetor

Tutor-student marketplace with search, profiles, and booking workflows.

PROFESSIONAL ACHIEVEMENTS

- Successfully delivered 6+ enterprise SaaS products across Banking, Entertainment, E-commerce, and Facility Management industries.
- Led engineering teams of 6+ developers through Agile Scrum delivery cycles.
- Reduced UI development effort by an estimated 20–25% through reusable React/Next.js component libraries.
- Delivered real-time communication systems using Socket.IO and Firebase Cloud Messaging.
- Designed scalable REST and GraphQL APIs supporting web and hybrid mobile applications.
- Improved application performance through optimized database queries, lazy loading, caching, and frontend rendering optimization.

EDUCATION

- MCA – Computers, Uttar Pradesh Technical University (UPTU), 2012
- BCA – Computer Applications (General), Bhopal University, 2009
